GIA Grading scales are used above. We are not connected with the GIA in any form. We use every reasonable effort to conform to GIA grading, however, we cannot guarantee our grading will be identical to the GIA. Any mark on the diagram may not reflect the exact size of its characteristic. This report is not complete and is null and void unless accompanied by all pages as numbered. This report is subject to all Limiting and Contingent Conditions as stated on the attached page.
